Chapter 1 by OrangeElephant

My stomach churned. Then half a second later, the whole room was filled with the stench of foul greenish liquid coming from inside me. I feel weak, my legs seem to have stopped working. I close my eyes, hoping this damn pill would just leave my body. My stomach turns sideways, and I think it's going to happen, except there's nothing left but the pill, which pops out. I promise myself there and then never EVER to take random pills from a stranger, not even if he says they cure depression.

My sister walks in to check on me. I realise then she is the only one I have left, after mother passed. Suddenly, the ground starts shaking. I hear a voice outside, proving my thoughts correct. "EARTHQUAAAAAAAAAAAAAKE!!!"

This is not my day.
